## TERRAZO & VINYL CONCRETE GRINDING & POLISHING

*Supply & Installation*

*W.A.M Floors is Sale's premier supplier of polished concrete flooring.*

*This versatile option can be used both inside and out and is functional and long lasting.*

### **GROUND CONCRETE WITH TWO PACK COATING**

Ground concrete with two pack coating sometimes referred to as Polished Concrete however; there is a difference which occurs during the process.

With ground concrete, while the concrete is ground, hardened and filled, it is coated with a clear two pack sealer to obtain a gloss shine, whereas polished concrete requires no two pack sealer.

Depending on the traffic area, the sealer will need to be reapplied every few years as although this treatment is extremely durable, it will scratch and dull over time.

Coloured Two Pack Coating can also be used for commercial application such as warehouses and for something different, coloured flakes can be added to create an amazing feature. For areas requiring a non-slip surface, silica sand or aluminium oxide is added and then sealed with a clear coat.
